

JX-2 INDUSTRIES, LLC

*Commercial & Industrial Facility Construction,
Repairs, and Rapid Response Support*
San Antonio, TX • 210-305-9833 • juan@jx2industries.com
Minority-Owned Small Business

CORE CAPABILITIES

- Facility renovation and improvement
- Demolition and site cleanup
- Emergency repair and rapid mobilization
- Subcontractor and vendor management

PAST PERFORMANCE

Omaha Rail Facility: Replaced 40,000 square feet of concrete slab and 1,400 linear feet of embedded rail track including demolition, grading, forming, pouring, alignment, and return-to-service.

Cleburne, Texas: Built a 2,200 square foot break room and locker room building plus a 400 square foot foreman office including framing, mechanical, electrical, plumbing, interior finishes, and commissioning.

San Antonio, Texas: Installed 28 pneumatic air stations with underground and overhead piping back to the primary compressor system including trenching, equipment mounting, testing, and startup.

DIFFERENTIATORS

- Fast mobilization when facilities have downtime
- Experience in active industrial and rail environments
- Direct owner involvement on every project
- Strong subcontractor and vendor coordination
- Minority-Owned Texas contractor
